WHY CHOOSE INTELLIGENT DESIGNS FOR YOUR COMPANY?

Established on Black Friday in 1996. **Intelligent Designs** was originally to offer website hosting and design, but grew over the years to cover so many different aspects of technology. Today **Intelligent Designs** offers a full blown, large scale company's information technology, or IT, department that is only a phone call away, with no phone system run around.

Randy S. Panebianco the company owner has over 25 years in the technology industry, and is **both Microsoft & Apple Certified**. He prides himself on being dependable, trustworthy, & knowledgeable about your company's technology needs.

Partnered with major industry companies both as a Microsoft Partner / Developer, and the only Apple Consultants Network members in the area. **Intelligent Designs** has made a name for itself in the Syracuse business area. We take great pride in maintaining an **A+ rating** with the **Better Business Bureau** and we are also proud to be longtime members of the **CenterState CEO.** When you combine these well known, trusted sources with our *fully insured* status, you have the piece of mind that you are working with an IT company that has your needs in mind, and you will be well cared for by the entire staff of service professionals at **Intelligent Designs**.

DOES YOUR COMPANY HAVE A RELIABLE IT DEPARTMENT?

(315) 424-0707

INTELLIGENT DESIGNS LET US HELP WITH YOUR IT NEEDS.

SERVICES WE CAN PROVIDE YOU:

Networking: A good network setup is the key to running a smooth business. It's not only the connection between the devices in your office, but also your link to the outside world. **Intelligent Designs** can install, upgrade, and maintain your network, all while working with you to find the right balance to fit your budget.

Computers: Like your network, computers are essential to a successful business. Nothing slows down productivity, along with souring employees satisfaction like a PC that isn't running as it should. **Intelligent Designs** can build, repair, upgrade and maintain these vital machines. **<u>Don't wait until disaster strikes</u>**.

Websites: The web is full of potential customers, and your website is your company's store front on the internet. You would want your customers to see the very best your company has to offer offline, why not for those in cyberspace as well. **Intelligent Designs** can design, build, host, maintain, and update a site right for you.

Software: "The right tool for the job". That saying has been around since business began, and software is as much a tool in today's digital age. If certain software is not quite right for your business model why not have one made that is! **Intelligent Designs** can design, code, update, and maintain that perfect program!

AntiVirus: There are a lot of things in cyberspace that would do you harm. Viruses, Worms, Hackers, Browser Hijackers, Key loggers, etc. Are you 100% sure your digital infrastructure is safe? **Intelligent Designs** can make sure you stay on the cutting edge of cyber defense, and if something does get it, we will eliminate it.

Onsite Consulting: Think a phone call away is too long to receive great service? Have a big IT project coming up and you want someone there who knows how to fix things that go wrong. **Intelligent Designs** offers blocks of time that can have us there on hand when you really need that technical know how.

Security: Ever wonder what went on at your business over night, or when you were away on vacation? Want to secure your property for both your employees and your business? **Intelligent Designs** can set up a multi-camera security system that gives you access to the video feed from your home, or even your phone.

Training: Not sure how to use certain software or hardware, or do you want your employees to learn how to use new technology? **Intelligent Designs** can do solo or group training for new software or technology to keep your company in the know for the ever changing digital frontier .

Emergency Recovery: If you lost all access to your data today due to unforeseen tragedy, would your business be able to pick up where it left off & continue on with little downtime? If the answer is no, **Intelligent Designs** has several solutions to backup vital files offsite so that you can get back up and running in no time!

iPhone Repair: Cell phones are an essential piece of today's business world. That being said, cell phones break. One phone that we specialize in repairing is the Apple iPhone. Cracked screen to water damage, **Intelligent Designs** has the technical know how to get your phone back up and getting you reconnected.

Laptop Repair: Desktop PCs are pretty easy to repair, Laptops are a different matter. Compact & delicate parts are some of the reasons that make laptops hard to work with. **Intelligent Designs** has the ability to service most laptops so that you don't have to box it up and ship it off

Apple Consultants: Apple makes great products; Macs, MacBooks, iPhones, and iPads. Apple is very selective as to who they let service & support their products. **Intelligent Designs** can deliver on-site technology services and support to home & business users. Let us show you how we can help you with your Apple technology today!
